SEO

Career Objective

I am passionate about designing apps that provide a delightful user experience. Having worked as a Digital Publisher at Sun Life for over two years, I am excited at the prospect of working in a more technical role.

Work Experience

Digital Publisher / Sun Life Financial / Apr 2019 - Present / Waterloo, ON

- Utilized Adobe Experience Manager to create and maintain Sun Life sites.
- Participated in the Migration Project by transmigrating Sun Life sites to AEM.
- Coded webpages with HTML and CSS.
- Communicated with clients to deliver needs and wants.
- Worked collaboratively with teammates to ensure speedy progress and minimal errors.

Inventory Control Specialist / Costco Wholesale / May 2018 - Aug 2018 / Ottawa, ON

- Delivered inventory orders using AS400 software (IBM).
- Maintained pharmaceutical supplies across Canadian Costco warehouses.
- Created a variety of reports using Excel, VBA, and the Google suite.

Projects

Next Portfolio / Next.js, SASS / [GitHub Repo](#) / [Live Deployment](#)

- Serves as an online profile and nexus for myself.
- Takes advantage of React and Next.js's modular capabilities.
- Features subtle animations.
- Mobile-first design.

Discord Adventure RPG / Node.js, PostgreSQL / [GitHub Repo](#)

- A combative adventure game played via text inputs.
- Capacity to be played by individuals and groups.
- Saves user progress onto a PostgreSQL server.
- Free-to-play by anyone using Discord's free VoIP service.
